

AREAS OF SPECIALISM

Agrometeorology
Air Pollution Meteorology
Atmospheric Chemistry
Atmospheric Modelling
Aviation Forecasting
Aviation Meteorology
Boundary Layer Meteorology
Broadcast Meteorology
Catastrophe Model Development and Evaluation
Catastrophe Risk Analysis
Chemical Oceanography
Climatic Change
Climatology and/or Applied Climatology
Cloud Physics and/or Chemistry
Commercial Meteorology
Customer Relations/Care/Services
Data Processing
Dynamical Meteorology
Education and Training
Electrical Phenomena
Forensic Meteorology
Forest Meteorology
General Climatology
Groundwater Hydrology
Hydrometeorology
Impact Based Forecasting
Instrumentation and Measurements
Marine Forecasting
Marine Meteorology
Marine Routing

Media
Meteorological Research Support
Microclimatology
Military Meteorology
Numerical Analysis or Forecasting
Observations
Other - meteorological
Other non-meteorological
Physical Oceanography
Planetary Atmospheres
Polar Meteorology
Radar
Research Management and Knowledge Transfer
Satellite Remote Sensing
Seasonal/Sub Seasonal Forecasting
Solar Energy/Renewables
Space Weather
Statistical Climatology
Storms (Cyclones, Tornadoes, Tropical, Extra-Tropical)
Synoptic Meteorology
Weather Forecasting (general)
Weather Modification
Wind Engineering
